\* Benefits unique to Wonderware Midwest support

\*\* This is the base quantity provided to customers meeting the minimum spend

## Pricing

Customer FIRST Support is fee-based and paid annually. License value is determined by the current published product cost, and enrollment or renewal pricing is determined by the total license value at the site. Mandatory upgrades to the current version are included upon enrollment. Any licenses not included in the list are subject to additional upgrade and support costs.

If purchases are made during the agreement period, those licenses are added to the agreement and pro-rated to the expiration date. If purchases are made through a third party, it is the responsibility of the site to add those licenses to support at the time of installation or renewal. Adding missing licenses to the agreement requires a version upgrade purchase and any applicable activation fees.
